Amrit Chapai

Leadership

I naturally take charge and inspire others to work towards shared objectives. I have excellent interpersonal and communication abilities, and I can quickly establish relationships with other team members. Successful project outcomes have continually been produced by my ability to motivate and enable my team to realize their full potential. I have great problem-solving and decision-making skills, which enable me to quickly analyze problems and put forth workable answers. I'm constantly looking for new chances for growth and challenges since I'm passionate about excellence. I also pledge to help my team members to succeed in achieving the objective

Projects

- Nepali platform to share stories using python/django, html, Css for 3rd year project
- Music game with C++
